

# Southeast Alaska Transportation Plan

Dear Reader,

The Alaska Department of Transportation and Public Facilities (ADOT&PF) Southeast Region (SER) Planning Staff recently released the Southeast Alaska Transportation Plan (SATP) 2011 Update Scoping Report and held a round of public meetings in 20 communities. You are receiving this newsletter because you either attended a meeting or submitted a comment. We appreciate your participation.

Through this process we received 167 written comments and numerous additional verbal comments. While we don't have the resources to respond to each and every comment, we have read them all and are using them to prepare and strengthen the Draft SATP. A public engagement summary that details the public involvement process and summarizes key points raised in comments, and a complete record of all written comments, is available at

<http://dot.alaska.gov/sereg/projects/satp/index.shtml>

ADOT&PF SER is now working on a Draft SATP and this document will include an appendix that responds to many of the comments received during the scoping phase. Currently, we are developing the SATP final alternatives and working with a consultant to complete a user-benefit analysis of these alternatives. Please see the timeline to the right for more information on the SATP update schedule. We look forward to working with you as the plan continues to develop.

Sincerely,

**SER Planning Staff**

*Andy Hughes, Verne Skagerberg,*

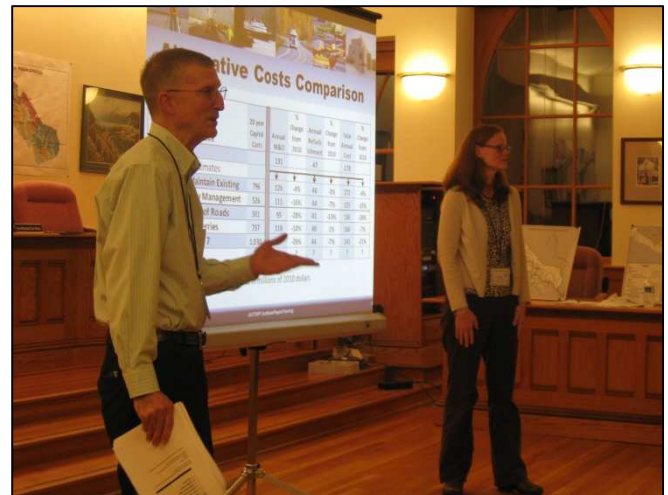

*Jim Potdevin, and Marie Heidemann*

## Anticipated Timeline for SATP Update

Draft SATP Released -----Summer 2012

Draft SATP Public Meetings-----Summer 2012

Final SATP Released-----Fall/Winter 2012

If you have questions, comments, would like to be added to or removed from the SATP contact list, please contact:
